

Diamond Federation of Hong Kong, China Limited 香港鑽石總會有限公司

24th April, 2020

Dear DFHK members,

In late March, The World Federation of Diamond Bourses (WFDB) sent a letter to all member bourses to lend its support to Get Diamonds (www.get-diamonds.com), an international trading platform initially developed and managed by Israel Diamond Institute (IDI). The WFDB today announced that they have successfully come to an agreement with IDI to acquire the Get Diamonds Platform. The platform will be managed by an independent Board of Directors and serve the members of all member bourses in an objective, competitive and transparent way to promote and facilitate the diamond industry.

As chairman of DFHK, a member of WFDB, I am writing to encourage you to explore and experience the Get Diamonds Platform. Its wide inventory of more than 1.1 million diamonds with a total value over USD 4.7 billion speaks to the strength of the platform, which has received enormous support from its members and users who have also given it praise for consistently making improvements according to user suggestions and comments. I believe it can serve to benefit our industry by bringing enriched market information and efficient trading options.

In order to encourage the trial of the platform, new registration for members of bourses is currently free of charge and all members can feel free to trade on this platform given WFDB ownership and support. In view of the ever-changing market environment, the industry should induce flexible measures, stand united and work wholeheartedly together to overcome our present challenges and build a brighter future.

My best wishes for your good health and sustainable prosperity!

With warmest regards,

Lawrence Ma
Founding President and Chairman
